2017 SUMMER PROGRAM DATES

June 19th - July 21st (5 Weeks)

Summer can be a time when children of all ages lose much of what they have learned during the school year unless they are intellectually engaged during the months they are out of school. Join us for many FUN opportunities to help your child's brain grow stronger! Your child can be at the RCLC half-days (select only a morning or the afternoon program) or the entire day. Select a morning and afternoon option to **create a full day** of activities for your child(ren). Lunch and mid-day enrichment workshops will be provided for all full-day participants.

They will also learn the value of working with others and identify ways they can become better team members. This experience will help students think more creatively, become better problem solvers, and appreciate the many ways we all depend on each other.
